

Audlem St James Primary School Sunflower Growing Competition

Now you have received the sunflower you need to encourage its growth by potting it on into a larger pot or a flower bed. It will need support with canes or trellis.

The competition is for both the largest flower diameter as well as the tallest sunflower.

When your sunflower is in full flower please measure the height from the ground / soil level to the top of the flower head. Please take a photo of you measuring the height.

Next measure the widest point across the flower head and take a picture of this being measured as well.

The measurements and photographs need to be sent to adasgardens@gmail.com along with your child's name and the class they are entering in Sept 22.

Please can make sure your entries are sent by 20th September.
